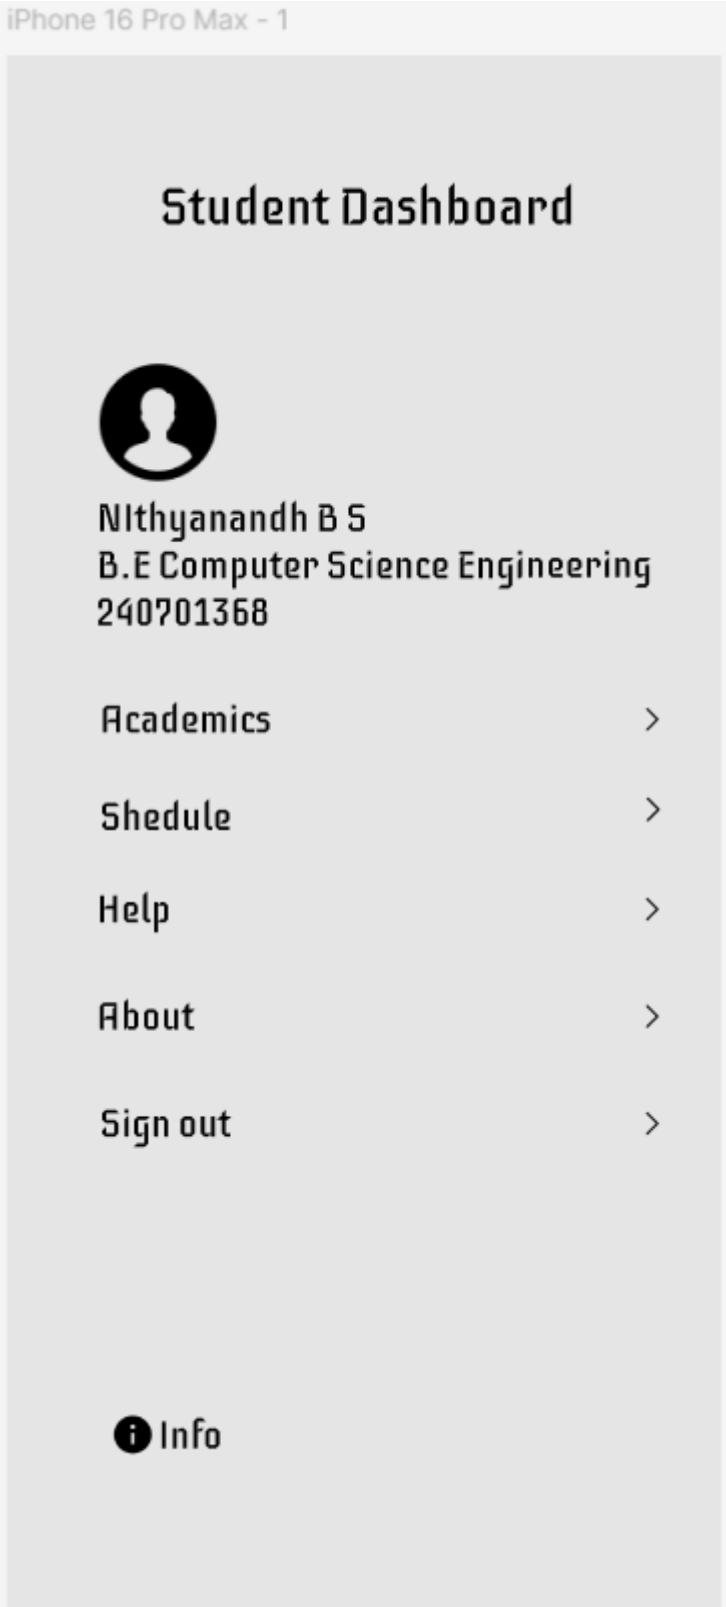
EXPERIMENT 1

BAD UI AND GOOD UI

Bad UI Design



Features & Drawbacks Identified (Bad UI – Left Screen)

Flat & Outdated Visual Design

- The interface uses a dull grey background with no visual appeal.
- No gradients, shadows, or card-based elements are used.
- The design feels old-fashioned and does not match modern mobile UI standards.
- Overall appearance looks plain and uninspiring.

Poor Visual Hierarchy

- Student name, department, and registration number appear with similar font styling.
- Important information is not visually emphasized.
- No distinction between primary content (student details) and secondary options (menu items).

Unstructured Layout

- All options are displayed as a simple vertical text list.
- No grouping or categorization of related features.
- Excess empty space makes the layout look incomplete.

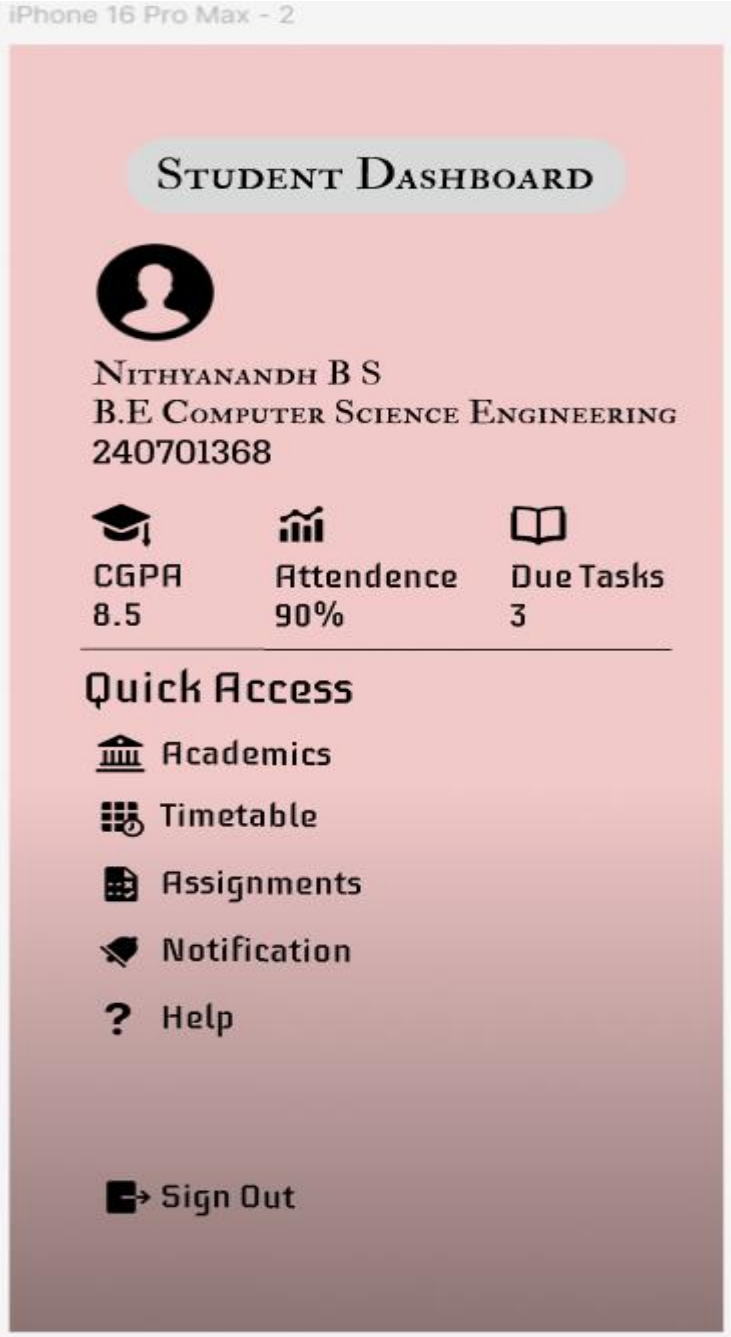
Lack of Student Engagement

- Only a basic placeholder icon is used instead of a personalized profile picture.
- No academic insights such as CGPA or attendance are shown.
- The dashboard does not provide quick information at a glance.

Limited Navigation & Functionality

- Menu items are text-only with no icons for visual guidance.
- No quick shortcuts to frequently used student features.
- Important actions like timetable or assignments are not highlighted.

Good UI Design



Features & Enhancements (Good UI – Right Screen)

Modern & Visually Appealing Header

- A soft gradient background enhances the overall aesthetic.
- "Student Dashboard" is placed inside a rounded header card for emphasis.
- Creates a strong first impression and clear identity for the screen.
- Smooth colour transitions add a modern, premium feel.

Profile & Personalization

- Circular profile icon improves personalization.
- Student name, department, and registration number are clearly displayed.
- Information is neatly aligned and easy to read.
- Helps students instantly recognize their account.

Clear Academic Insights at a Glance

- Important academic metrics such as:
    - CGPA
    - Attendance percentage
    - Due tasks
- These are displayed prominently using icons and spacing.
- Allows students to quickly track their academic status.
- Improves usefulness and decision-making.

Strong Visual Hierarchy

- Key information is highlighted using larger fonts and icons.
- Secondary actions are visually separated under "Quick Access."
- Different font weights improve readability.
- The layout naturally guides the user's attention.

Structured Layout with Icons

- Features are grouped under “Quick Access.”
- Icons accompany text for better recognition.
- Options like Academics, Timetable, Assignments, Notifications, and Help are clearly organized.
- Improves scanability and reduces cognitive load**.**

Enhanced Navigation & Usability

- Quick access shortcuts reduce the number of taps.
- Important actions are easier to locate.
- Sign-out option is visually separated to avoid accidental clicks.
- Overall user flow feels smooth and intuitive.
